

About RES

RES has been at the forefront of wind energy development for over 40 years and delivered more than 26GW of renewable energy projects worldwide. We employ more than 4,500 passionate people across the globe and are active in 24 countries, working across onshore and offshore wind, solar, energy storage, green hydrogen, transmission and distribution.

Sustainability lies at the core of our business activity and values, and we have been leading efforts to create a future where everyone has access to affordable zero carbon energy. By listening, discussing, and working together, we can build clean energy project proposals that power positive change for everyone.

RES in Scotland

RES is a privately-owned company with a proud history in Scotland. We grew out of Sir Robert McAlpine, a British family-owned firm with over 140 years of experience in construction and engineering including the Glenfinnan Viaduct in the Highlands and the Emirates Arena and Sir Chris Hoy Velodrome in Glasgow.

From our Glasgow office we have been developing, constructing and operating energy projects in Scotland since 1993.
